COPIES TO LANE, WECHT, WEISBERG-

Hello, Gents,

Yes, I'm still alive. I had to circulate the "news" that I died so as to provide anonymity for myself so that I could travel to somewhere to see some people pertaining to an important aspect of the JFK case you'll no doubt be hearing about in the near future, so it was worth it, OK??OK!!

Just thought you might want to read from an undated, but very recent new newsletter that is making its rounds across the country.

best,

Ted

P.S. In reference to the 22-hour videotaped all-inclusive JFK total history of the JFK assassination (enclosed flyer) I've self-produced and are selling like hotcakes..(thanks to Stone's "JFK" movie, if either/or all of you 3 gents would like a complete set..FREE OF COURSE.. just write me and let me know, OK??..OK!! T.G.

P.P.S. I've written to Senator Boren asking when they will release the JFK (Warren Commission & HSCA) files and got no answer in 3 months. Do any of you know when that's going to happen. Please inform me. Thanks.

Is this Ted G. for real?! I wrote a letter of condolence to his wife a year or so ago. What do you know about his rugged demise?
